

ALAMIN RAHMAN TUHIN

FLUTTER & ANDROID DEVELOPER

+880 1941451805 • mdalaminrahmantuhin@gmail.com • Dhaka, Bangladesh

PROFESSIONAL SUMMARY

Ambitious and technology-driven mobile application developer with hands-on experience in Flutter, Dart, Java, Android Studio, Firebase, Git and modern mobile development workflows. Strong interest in building practical, scalable and user-friendly applications. Experienced in troubleshooting Gradle dependencies, Firebase configuration, Android permissions and platform integration.

CORE COMPETENCIES

Flutter & Dart	Cross-platform mobile application development, responsive UI and navigation.
Android Development	Java, Android SDK, Activities, Services and native platform integration.
Firebase	Firebase Core, Authentication, Cloud Firestore and project configuration.
Development Tools	Android Studio, VS Code, Git, GitHub and Gradle.
Problem Solving	Debugging build errors, dependency conflicts and device compatibility issues.
UI / UX	Modern layouts, Material Design, responsive screens and user-focused interfaces.

TECHNICAL SKILLS

Programming: Dart • Java • Basic Python • SQL / Database Concepts

Mobile: Flutter • Android SDK • Firebase • REST API Concepts • State Management

Tools: Android Studio • Git • GitHub • Gradle • VS Code

Other: Debugging • API Integration • UI Development • Problem Solving

SELECTED PROJECTS

Focus Lock — Productivity Mobile App

Developed a Flutter-based focus application concept for helping users manage distractions. Worked with Android usage access permissions, native MethodChannel integration and application monitoring logic.

Firebase Authentication & Mobile Apps

Configured Firebase projects and implemented authentication workflows. Worked with Firebase initialization, Google Sign-In concepts, Android configuration and platform-specific troubleshooting.

Education Result / Information App Concepts

Explored mobile application workflows involving online data retrieval, API integration, user interfaces and result presentation.

EXPERIENCE • EDUCATION • ADDITIONAL INFORMATION

DEVELOPMENT EXPERIENCE

Independent Mobile Application Development | Personal & Learning Projects

- Built and tested Flutter applications on Android devices and emulators.
- Integrated Firebase services and investigated authentication configuration issues.
- Worked with Android permissions, services and usage statistics concepts.
- Resolved Gradle, SDK, Java and dependency compatibility problems.
- Used GitHub for source-code management and release distribution.
- Designed mobile interfaces using modern Android and Flutter UI components.

EDUCATION

SSC / Equivalent

School: Vakral Ideal School

Board: Dhaka| Year: 2023 | GPA: 3.33

HSC / Diploma / Higher Education

Institution: [Dhaka Institute of Technology - DIT](#)

PROFESSIONAL STRENGTHS

- Quick learner with strong interest in modern technology
- Practical problem-solving and debugging mindset
- Comfortable working independently on technical projects
- Interested in continuous learning and skill development
- Focused on clean, functional and user-friendly applications

LANGUAGES

Bangla — Native / Fluent

English — Working Proficiency

ADDITIONAL INFORMATION

Nationality: Bangladeshi

Location: Tongi Gazipur Dhaka Bangladesh

Availability: Open to internship, junior developer and freelance opportunities

CAREER OBJECTIVE

To begin and grow my career in software and mobile application development where I can apply my technical skills, creativity and problem-solving abilities while continuously learning and contributing to meaningful digital products.
